# Zishan Arif

# **Profile Summary**

- Creative and detail-oriented Software Developer with hands-on experience in building responsive web applications.
- Proficient in modern technologies including React.js, JavaScript, and Tailwind CSS, with a strong focus on clean design and performance optimization.
- Currently expanding skill set to full-stack development using Node.js and MongoDB to deliver scalable and efficient solutions.

# Work Experience

CollegePur, Remote

Front-End Web Developer

Feb 2025 - Present

- Worked on React.js applications with Redux, improving state management across components.
- Optimized frontend performance to enhance load times and overall user experience.
- Reviewed peer code to ensure readability, optimization, and adherence to coding standards.
- Used Git for version control, enabling efficient and seamless collaboration with team members.

## **Projects**

### Infinite Quests - Click Here

April 2025

React.js, Tailwind CSS, React Router, Vite

- Built a responsive educational web app to explore space topics like galaxies, planets, stars, and black holes.
- Designed modular UI using reusable React components and Tailwind CSS for maintainability and consistency.
- Integrated Framer Motion and hover interactions to enhance user engagement and navigation flow.

#### E-commerce - Click Here

March 2025

React.js, Tailwind CSS, Vite

- Developed a fully responsive e-commerce platform using React.js and Tailwind CSS, featuring dynamic product listings, detail pages, and a shopping cart.
- Implemented state management using useState and useContext, and optimized navigation with React Router.

#### Simon Says - Click Here

January 2025

JavaScript, Tailwind CSS

- Built an interactive Simon Says memory game focusing on DOM manipulation and event handling.
- Implemented randomized color sequences and real-time user input validation to enhance gameplay logic.

#### Other Project - Click Here

November 2024

Random Gif, Number Guess, Random Password generate

#### Technical Skills

- Languages: JavaScript, Python, C++, C, SQL (PostgreSQL)
- Frontend Technologies: React.js, Tailwind CSS, HTML, CSS
- Backend Technologies: Node.js, Express.js, MongoDB
- Tools: Git, Power BI
- Other Skills: Problem Solving & DSA, Prompt Engineering

## Education

# Guru Jambheshwar University of Science and Technology, Hisar, Haryana

July 2022 - May 2026

B.Tech (Computer Science and Engineering)

## Certifications, Achievements

Certifications: Tata Group – Data Visualization: Empowering Business Click Here

- Solved 350+ DSA problems on LeetCode and GeeksforGeeks.
- 1st Rank (University Level) Smart India Hackathon.
- Skilled in public speaking, event management, and leadership.
